as duties and taxes paid or payable on components and raw material
incorporated or to be incorporated in the goods, and named port of

with applicable INCOTERM in the price of the goods offered from outside
Pakistan.
In evaluating the Bidders, the evaluation committee will, in addition to the
Bid price quoted in accordance with ITB 15.1, take account of one or
more of the following factors as specified in the BDS, and quantified in
ITB 32.5:
a) Cost of inland transportation, insurance, and other costs within
the Pakistan incidental to delivery of the goods to their final destination.
b) delivery schedule offered in the Bid;
c) deviations in payment schedule from that specified in the Special
Conditions of Contract;
d) the cost of components, mandatory spare parts, and service;
e) the availability (in Pakistan) of spare parts and after-sales
services for the equipment offered in the
Bid;
f) the projected operating and maintenance costs during the life

	of the equipment:
	<ul> <li>of the equipment;</li> <li>g) the performance and productivity of the equipment offered; and/or</li> <li>h) other specific criteria indicated in the TBS and/or</li> </ul>
	in the Technical Specifications
33.5	33.5 For factors retained in BDS, pursuant to ITB 33.4 one or more of the following quantification methods will be applied, as detailed in the BDS:
	(a) Inland transportation from EXW/port of entry/border point, Insurance and incidentals.
	Inland transportation, insurance, and other incidental costs for delivery of the goods from EXW/port of entry/border point to Project Site named in the BDS will be computed for each Bid by the PA on the basis of published tariffs by the rail or road transport agencies, insurance companies, and/or other appropriate sources. To facilitate such computation, Bidder shall furnish in its Bid the estimated dimensions and shipping weight and the approximate EXW or as per applicable INCOTERM value of each package. The above cost will be added by the Procuring Agency to EXW or as per applicable INCOTERM price.
	(b) Delivery schedule. <ol> <li>The Procuring Agency requires that the goods under the Invitation for Bids shall be delivered (shipped) at the time specified in the Schedule of Requirements. The estimated time of arrival of the goods at the Project Site will be calculated for each Bid after allowing for reasonable international and inland transportation time. Treating the Bid resulting in such time of arrival as the base, a delivery "adjustment" will be calculated for other Bids by applying a percentage, specified in the BDS, of the EXW or as per applicable INCOTERM price for each week of delay beyond the base, and this will be added to the Bid price for evaluation. No credit shall be given to early delivery.</li> </ol>
	<ul> <li>ii) The goods covered under this invitation are required to be delivered (shipped) within an acceptable range of weeks specified in the Schedule of Requirement. No credit will be given to earlier deliveries, and Bids offering delivery beyond this range will be treated as non-responsive. Within this acceptable range, an adjustment per week, as specified in the BDS, will be added for evaluation to the Bid price of Bids offering deliveries later than the earliest delivery period specified in the Schedule of Requirements. Or</li> </ul>
	<ul> <li>(iii) The goods covered under this invitation are required to be delivered (shipped) in partial shipments, as specified in the Schedule of Requirements. Bids offering deliveries earlier or later than the specified deliveries will be adjusted in the evaluation by adding to the Bid price a factor equal to a percentage, specified in the BDS, of EXW or as per applicable INCOTERM price per week of variation from the specified delivery schedule.</li> <li>(c) Deviation in payment schedule.</li> </ul>
	i) Bidders shall state their Bid price for the payment schedule outlined in the SCC. Bids will be evaluated on the basis of this base price. Bidders are, however, permitted to state an alternative payment schedule and indicate the reduction in Bid price they wish to offer for such alternative payment schedule. The Procuring Agency may consider the alternative payment schedule offered by the selected Bidder.
	Or ii) The SCC stipulates the payment schedule offered by the Procuring Agency. If a Bid deviates from the schedule and if such

		<ul> <li>deviation is considered acceptable to the Procuring Agency, the Bid will be evaluated by calculating interest earned for any earlier payments involved in the terms outlined in the Bid as compared with those stipulated in this invitation, at the rate per annum specified in the BDS.</li> <li>(d) Cost of spare parts</li> <li>i) The list of items and quantities of major assemblies, components, and selected spare parts, likely to be required during the initial period of operation specified in the BDS, is annexed to the Technical Specifications. The total cost of these items, at the unit prices quoted in each Bid, will be added to the Bid price.</li> </ul>
		ii) The Procuring Agency will draw up a list of high-usage and high- value items of components and spare parts, along with estimated quantities of usage in the initial period of operation specified in the BDS. The total cost of these items and quantities will be computed from spare parts unit prices submitted by the Bidder and added to the Bid price. Or
		<ul> <li>iii) The Procuring Agency will estimate the cost of spare parts usage in the initial period of operation specified in the BDS, based on information furnished by each Bidder, as well as on past experience of the Procuring Agency or other Procuring Agency's in similar situations. Such costs shall be added to the Bid price for evaluation.</li> <li>(e) Spare parts and after sales service facilities in Pakistan The cost to the Procuring Agency of establishing the minimum service facilities and parts inventories, as outlined in the BDS or elsewhere in the Bidding Documents, if quoted separately, shall be added to the Bid price.</li> <li>(f) Operating and maintenance costs</li> </ul>
		Since the operating and maintenance costs of the goods under procurement form a major part of the life cycle cost of the equipment, these costs will be evaluated in accordance with the criteria specified in the BDS or in the Technical Specifications. (g) Performance and productivity of the equipment.
		(i) Bidders shall state the guaranteed performance or efficiency in response to the Technical Specification. For each drop in the performance or efficiency below the norm of 100, an adjustment for an amount specified in the BDS will be added to the Bid Price, representing the capitalized cost of additional operating costs over the life of the plant, using the methodology specified in the BDS or in the Technical Specifications. Or
		<ul> <li>(ii) Goods offered shall have a minimum productivity specified under the relevant provision in the Technical Specifications to be considered responsive. Evaluation shall be based on the cost per unit of the actual productivity of goods offered in the Bid, and adjustment will be added to the Bid price using the methodology specified in the BDS or in the Technical Specifications.</li> <li>(h) Specific additional criteria.</li> </ul>
	33.6	If these Bidding Documents allow Bidders to quote separate prices for different Lots, and the award to a single Bidder of multiple Lots, the methodology of evaluation to determine the lowest evaluated Lot combinations, including any discounts offered in the Form of Bid, is specified in the BDS.
34) Domesti c preference	34.1	If the BDS so specifies, the Procuring Agency will grant a margin of preference to certain goods in line with the rules, regulations, regulatory guides or instructions issued by the Authority from time to time.

		usage and output of the products; however not clear about the
		complete features, technical specifications and functionalities of
		the goods to be procured and requires the bidders to submit their
		proposals defining those features, specifications and
		functionalities; or
		ii. ii. Where the Procuring Agency, in addition to the mandatory
		requirements and mandatory technical specifications, requires parameters specified in Evaluation Criteria to be evaluated while
		determining the quality of the goods:
		In such cases, the Procuring Agency may allocate certain weightage to
		these factors as a part of Evaluation Criteria, and may determine the
		ranking of the bidders on the basis of combined evaluation in accordance
		with provisions of Rule 2(1)(h) of PPR-2004.
36) Post-	36.1	36.1 After determining the Most Advantageous Bid, if neither the pre-
qualification		qualification was undertaken separately nor any qualification parameters

		of Most Advantageous Bid or as a part of the post-qualification process.
		The following process shall apply:
		(a) The Procuring Agency may reject a Bid if the Procuring Agency
		has determined that the price in combination with other constituent
		elements of the Bid is abnormally low in relation to the subject matter of
		the procurement (i.e. scope of the procurement or ancillary services) and
		raises concerns as to the capability and capacity of the respective Bidder
		to perform that contract;
		(b) Before rejecting an abnormally low Bid the Procuring Agency shall
		request the Bidder an explanation of the Bid or of those parts which it
		considers contribute to the Bid being abnormally low; take account of the evidence provided in response to a request in writing; and subsequently
		verify the Bid or parts of the Bid being abnormally low;
		(c) The decision of the Procuring Agency to reject a Bid and reasons
		for the decision shall be recorded in the procurement proceedings and
		promptly communicated to the Bidder concerned;
		(d) The Procuring Agency shall not incur any liability solely by
		rejecting abnormally Bid; and
		(e) An abnormally low Bid means, in the light of the Procuring
		Agency's estimate and of all the Bids submitted, the Bid appears to be
		abnormally low by not providing a margin for normal levels of profit.
		Guidance for Procuring Agency:
		In order to identify the Abnormally Low Bid (ALB) following approaches

	Procuring Agency deems necessary and appropriate. Factors not
	included in these Bidding Documents shall not be used in the evaluation
	of the Bidders' qualifications.
36.5	Procuring Agency may seek "Certificate for Independent Price Determination" from the Bidder and the results of reference checks may be used in determining award of contract. Explanation: The Certificate shall be furnished by the bidder. The bidder shall certify that the price is determined keeping in view of all the essential aspects such as raw material, its processing, value addition, optimization of resources due to economy of scale, transportation, insurance and margin of profit etc.
36.6	An affirmative determination will be a prerequisite for award of the contract to the Bidder. A negative determination will result in rejection of the Bidder's Bid, in which event the Procuring Agency will proceed to the next ranked bidder to make a similar determination of that Bidder's capabilities to perform satisfactorily.
