	international and inland transportation time. Treating the Bid resulting
	in such time of arrival as the base, a delivery "adjustment" will be
	calculated for other Bids by applying a percentage, specified in the

(c) Deviation in payment schedule.

i) Bidders shall state their Bid price for the payment schedule outlined in the SCC. Bids will be evaluated on the basis of this base price. Bidders are, however, permitted to state an alternative payment schedule and indicate the reduction in Bid price they wish to offer for such alternative payment schedule. The NBP may consider the alternative payment schedule offered by the selected Bidder.

0

ii) The SCC stipulates the payment schedule offered by the NBP. If a Bid deviates from the schedule and if such deviation is considered acceptable to the NBP, the Bid will be evaluated by calculating interest earned for any earlier payments involved in the terms outlined in the Bid as compared with those stipulated in this invitation, at the rate per annum specified in the BDS.

(d) Cost of spare parts

The list of items and quantities of major assemblies, components, and selected spare parts, likely to be required during the initial period of operation specified in the BDS, is annexed to the Technical Specifications. The total cost of these items, at the unit prices quoted in each Bid, will be added to the Bid price.

Or

ii) The NBP will draw up a list of high-usage and high-value items of components and spare parts, along with estimated quantities of usage in the initial period of operation specified in the BDS. The total cost of these items and quantities will be computed from spare parts unit prices submitted by the Bidder and added to the Bid price.

Or

iii) The NBP will estimate the cost of spare parts usage in the initial period of operation specified in the BDS, based on information furnished by each Bidder, as well as on past experience of the NBP or other NBP's in similar situations. Such costs shall be added to the Bid price for

		(g) Performance and productivity of the equipment.
		i) Bidders shall state the guaranteed performance or efficiency in response
		to the Technical Specification. For each drop in the performance or
		efficiency below the norm of 100, an adjustment for an amount

		capitalized cost of additional operating costs over the life of the plant,
		using the methodology specified in the BDS or in the Technical
		Specifications.
		Or
		ii) Goods offered shall have a minimum productivity specified under the

Bid	25.2	
	35.2	The NBP may adopt the Quality & Cost Based Selection Technique due to

	the following two reasons:
	i) Where the NBP knows about the main features, usage and output of the
	products; however not clear about the complete features, technical
	specifications and functionalities of the goods to be procured and requires
	the bidders to submit their proposals defining those features,
	specifications and functionalities; or
	ii) Where the NBP , in addition to the mandatory requirements and
	mandatory technical specifications, requires parameters specified in
	Evaluation Criteria to be evaluated while determining the quality of the
	goods:
	In such cases, the NBP may allocate certain weightage to these factors as a
	part of Evaluation Criteria, and may determine the ranking of the bidders on
	the basis of combined evaluation in accordance with provisions of Rule 2(1)(h)
	of PPR-2004.

	price analysis either during determination of Most Advantageous Bid or as a
	part of the post-qualification process. The following process shall apply:
	a) The NBP may reject a Bid if the NBP has determined that the price in
	combination with other constituent elements of the Bid is abnormally low in
	relation to the subject matter of the procurement (i.e. scope of the
	procurement or ancillary services) and raises concerns as to the capability and capacity of the respective Bidder to perform that contract;
	and capacity of the respective blader to perform that contract,
	b) Before rejecting an abnormally low Bid the NBP shall request the Bidder an
	explanation of the Bid or of those parts which it considers contribute to
	the Bid being abnormally low; take account of the evidence provided in
	response to a request in writing; and subsequently verify the Bid or parts
	of the Bid being abnormally low;
	c) The decision of the NBP to reject a Bid and reasons for the decision shall be
	recorded in the procurement proceedings and promptly communicated to the
1 1	Bidder concerned;
	d) The NBP shall not incur any liability solely by rejecting abnormally Bid; and
	e) An abnormally low Bid means, in the light of the NBP 's estimate and of all
	the Bids submitted, the Bid appears to be abnormally low by not providing a
	margin for normal levels of profit.

		Coddanas for NDD
		Guidance for NBP:
		In order to identify the Abnormally Low Bid (ALB) following approaches can be
		considered to minimize the scope of subjectivity:
		(i) Comparing the bid price with the cost estimate;

		submitting substantially responsive bids; and
		(iii) Comparing the bid price with prices paid in similar contracts in the
		recent past either government- or development partner-funded.

		having submitted the most advantageous Bid is qualified to perform the contract
		satisfactorily, in accordance with the criteria listed in ITB 13.3.
3	36.4	The determination will take into account the Bidder's financial, technical, and
		production capabilities. It will be based upon an examination of the documentary
		evidence of the Bidder's qualifications submitted by the Bidder, pursuant to ITB
		13.3, as well as such other information as the NBP deems necessary and
		appropriate. Factors not included in these Bidding Documents shall not be used
		in the evaluation of the Bidders' qualifications.
3	36.5	NBP may seek "Certificate for Independent Price Determination" from the
		Bidder and the results of reference checks may be used in determining award of
		contract.
		Explanation: The Certificate shall be furnished by the bidder. The bidder shall
