Public Procurement Regulatory Authority  
Training & Capacity Building Directorate

F.No.04(01)D.O.Trg/EPADS/2024

Islamabad, May 20, 2025

**Subject: TRAINING ON SUPPLIER'S MODULE OF e-PAK ACQUISITION & DISPOSAL SYSTEM (e-PADS) FOR SUPPLIERS AND CONTRACTORS**

All the Suppliers and Contractors are hereby informed that the Federal Public Procurement Regulatory Authority (PPRA) has developed and implemented the "e-Pak Acquisition & Disposal System (e-PADS)", a centralized, end-to-end e-procurement platform now operational across the country, including at the Federal and provincial levels. This system utilizes the latest technologies and communication tools to streamline public procurement processes.

As public procurement in Pakistan is shifting from manual to digital platforms, the Federal PPRA aims to enhance the capacity of Suppliers and Contractors through the training on e-PADS system. This includes access to a dedicated Supplier's/Contractor's module, enabling registration into a centralized database to support all public procurement activities.

To encourage broader participation, PPRA has reduced the training fee from Rs.5,000 to Rs.1,000 per participant. Suppliers and Contractors are encouraged to nominate the representatives and take advantage of this opportunity by registering for the one day training programs to be held in Islamabad with an advance payment of Rs. 1,000 (one thousand only) per participant.

For further details, the Training & Capacity Building Directorate may please be contacted.
